DevNix Medical & General Store

Business Data Report

Period: 01 July 2026 — 31 July 2026

Owner: Deepak Patel

Shop: DevNix Store, Mumbai

GST: 27DEVNX1234M1Z5

Executive Summary

This report presents a detailed analysis of sales, purchases, and expenses incurred by DevNix Medical & General Store for the month of July 2026. The data indicates fluctuations in sales primarily attributed to seasonal demands during the monsoon. A significant focus on fever medication and ORS sachets aligns with emerging health trends during this period.

Products Analysis

Top Selling Products by Sales Volume

1. **ORS Sachet**: 295 units sold
2. **Paracetamol 500mg**: 198 units sold
3. **Crocin 650mg**: 170 units sold
4. **Strepsils**: 55 units sold

Marketing Insights

- **Seasonal Trends**: Increased demand noted for products such as Paracetamol and ORS during the monsoon season, suggesting the need for marketing campaigns aligned with health trends.
- **Future Strategies**: Consider promotions and discount days similar to the bulk sales achieved during Independence Day.

Observations & Recommendations

1. **High Purchase vs Sales Ratio**: Total purchases have exceeded sales significantly, suggesting a need for inventory management to avoid excess stock.
2. **Focus on High-Demand Products**: Continue stocking high-demand items like ORS and fever medication to meet customer needs effectively.
3. **Cost Management**: Review expenses, especially fixed costs such as rent and salaries, to improve the overall profitability of the store.
4. **Customer Feedback**: Address complaints about expired products urgently to maintain store reputation.

This report provides an overview of the store's financial and operational performance during July 2026 and outlines strategic suggestions for improved efficiency and sales effectiveness moving forward.
